

# Science Platform BoF Intro

William O'Mullane (AURA/LSST), AURA/LSST  
DM Project Manager

ADASSXXVII BoF  
24<sup>th</sup> October 2017

ADASS XXVII BoF • October 24, 2017

## Some thoughts/questions

- Share where we are with providing scientists with advanced access to data
- How many of us are using Jupyter (Lab/Hub/Notebooks) .. how long will it last?
  - How do we share notebooks ?
  - How can we make them (more) portable?
- How do we handle batch processing?
  - Is Universal worker service sufficient ? (I fear not)
  - Quotas ?
  - Single sign on ?

I will write up the BoF .. but any helpers on note taking will be very appreciated (and named).

BoF Paper is here : <https://github.com/lsst-dm/adass27-womullan>
